A. Create a folder structure in your local system.

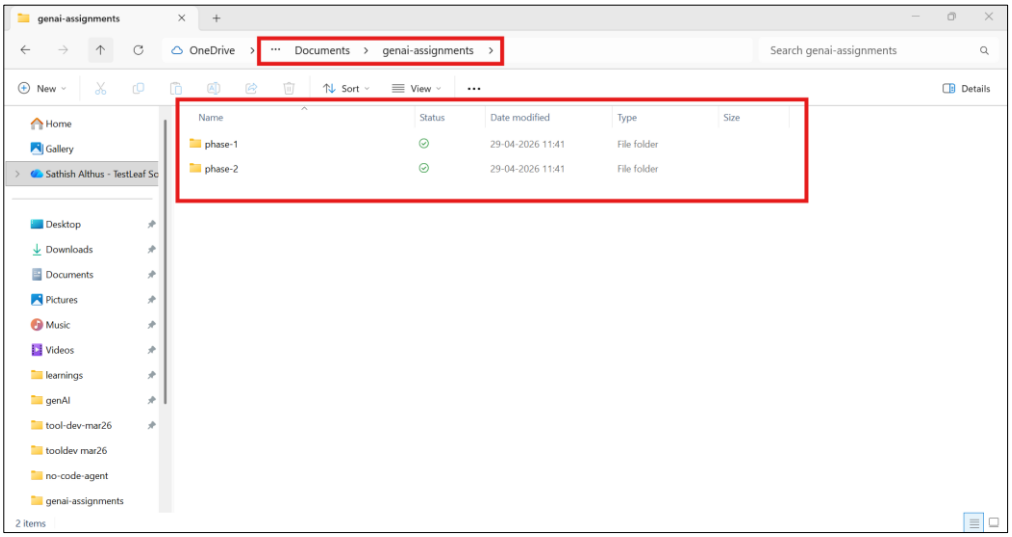

1. Create your assignments folder in your system as per the below structure.
   (Note: do not use spaces in the names, instead use hyphen (-) between words.)

   a. Choose any folder as your assignment location. (in this case, it is **Documents**)

   b. Add a new folder **genai-assignments** as the root folder).

   c. Add 2 new folders as **phase-1** and **phase-2**.

   d. Create subfolders for each phase.

      i. 4 folders for (**week-1**- to **week-4)** inside **phase-1**

      ii. And also for phase-2 (**week-1** to **week-12)** based on weeks.

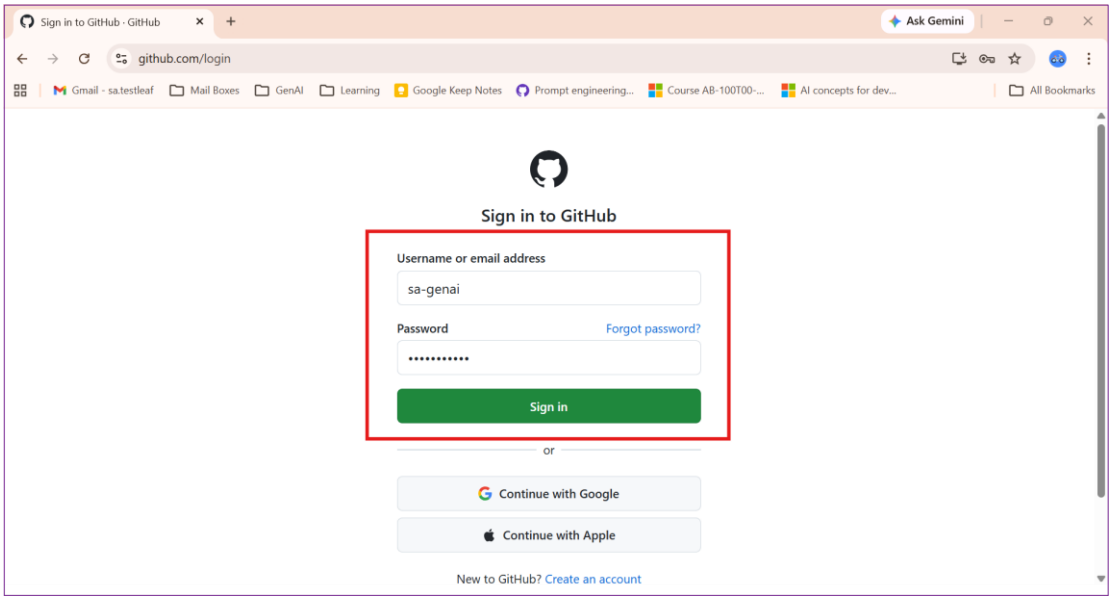

e. Create 2 subfolders for each week (**day-1 & day-2**).

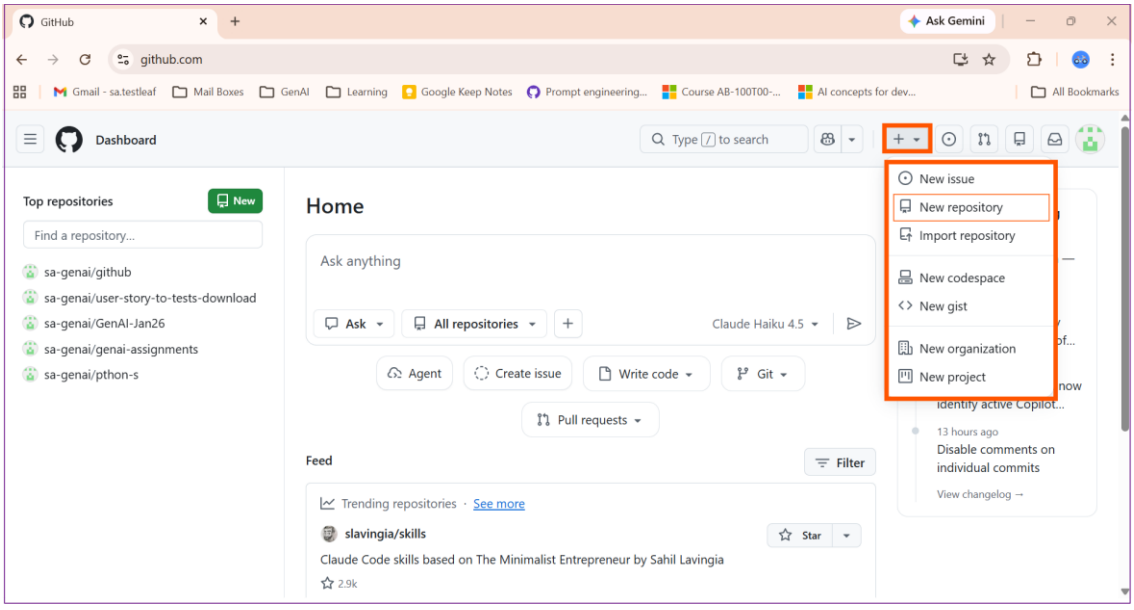

B. Create a git-hub repository.

1. Log in to your GitHub Account.

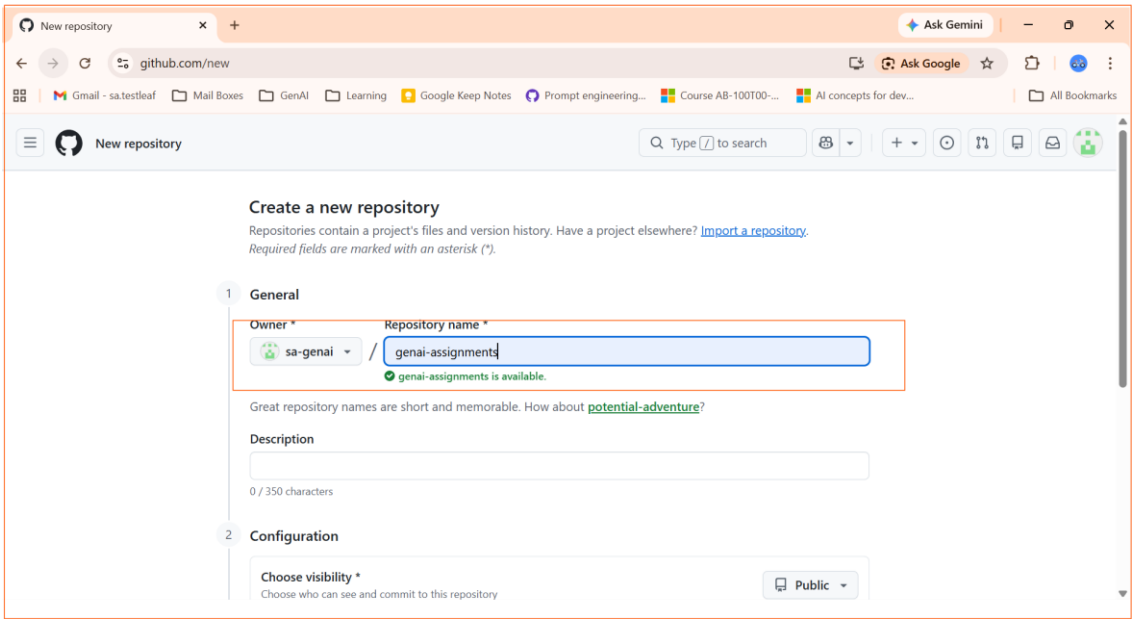

2. Create a new repository.

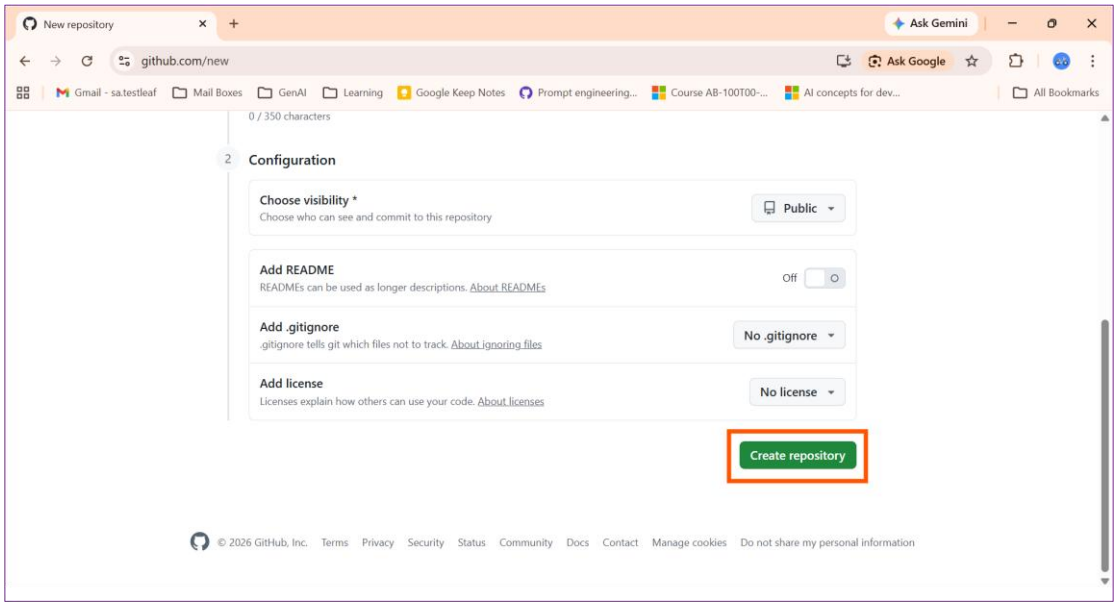

i. Click **Create New** Button. Select **New Repository** option.

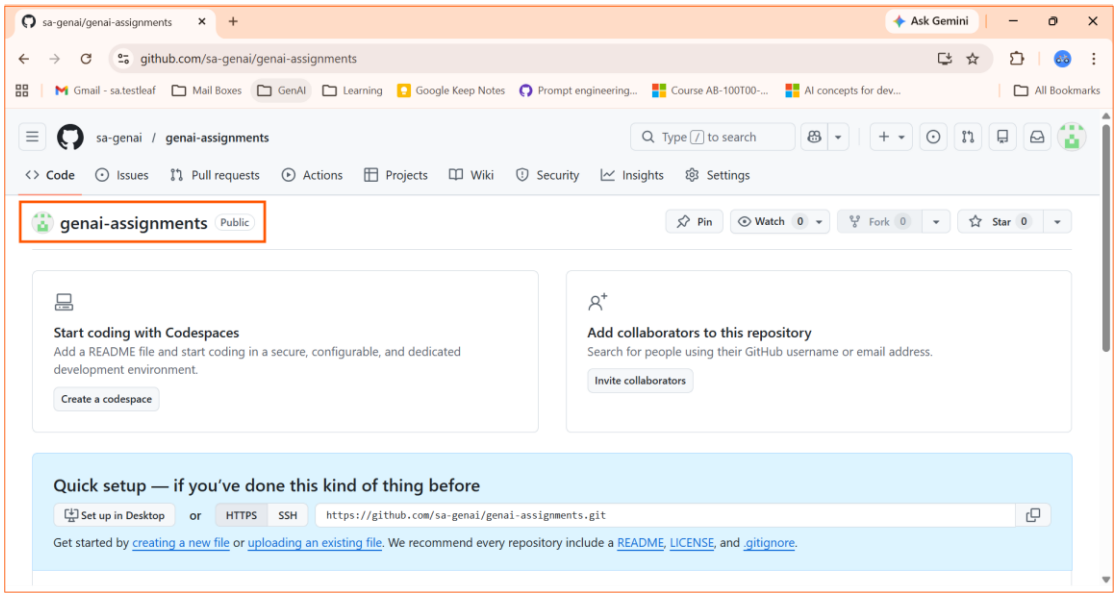

ii. Enter repository name “**genai-assignments”**.

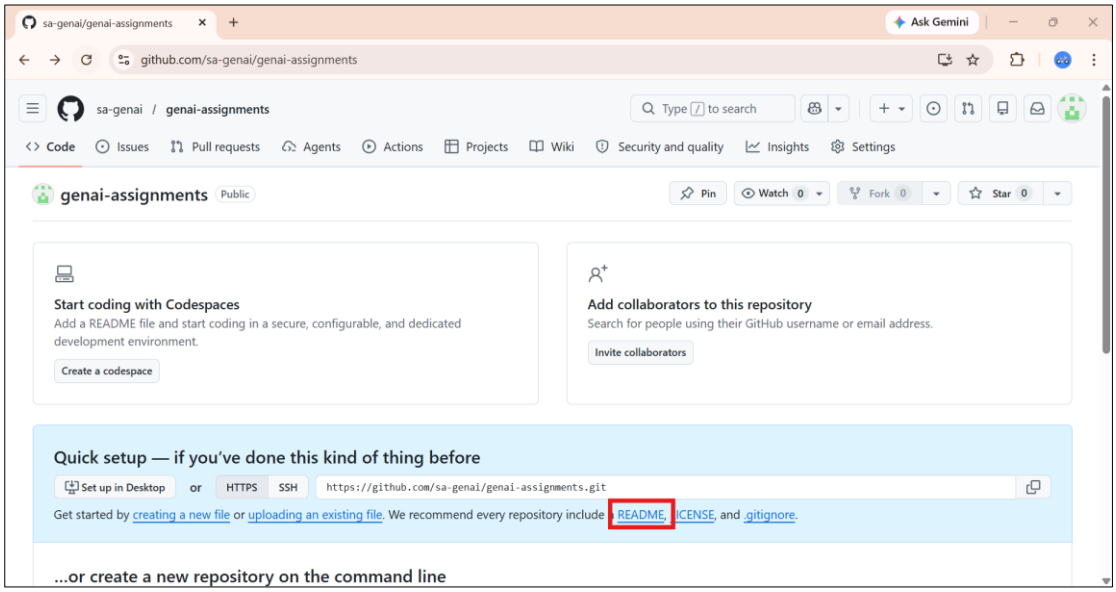

iii. Click **Create repository** button. (Note: follow proper naming syntax for clarity.)

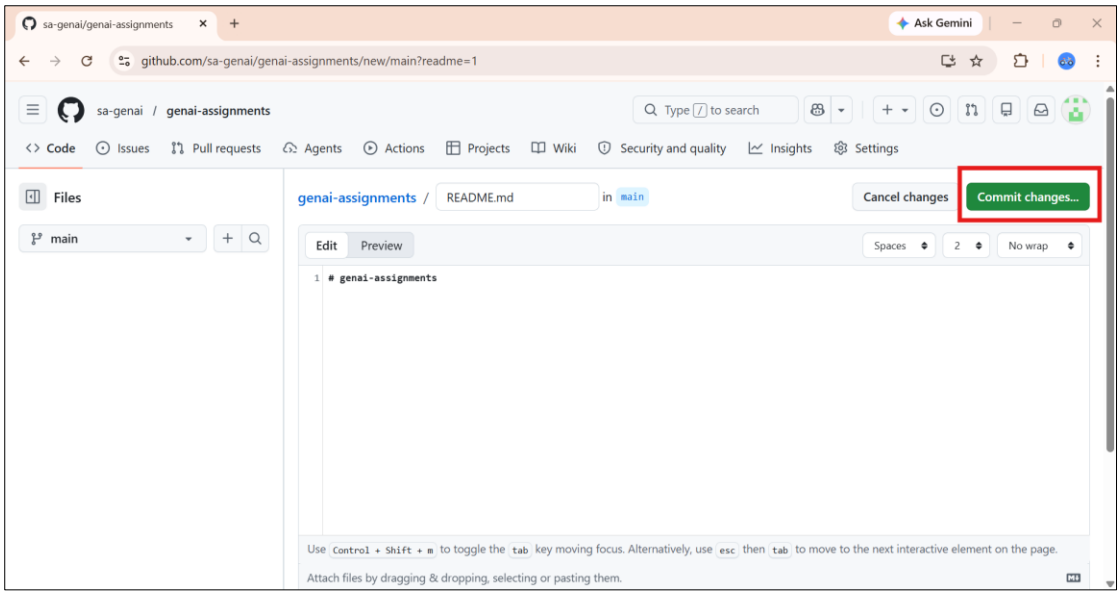

iv. Confirm the repository created.

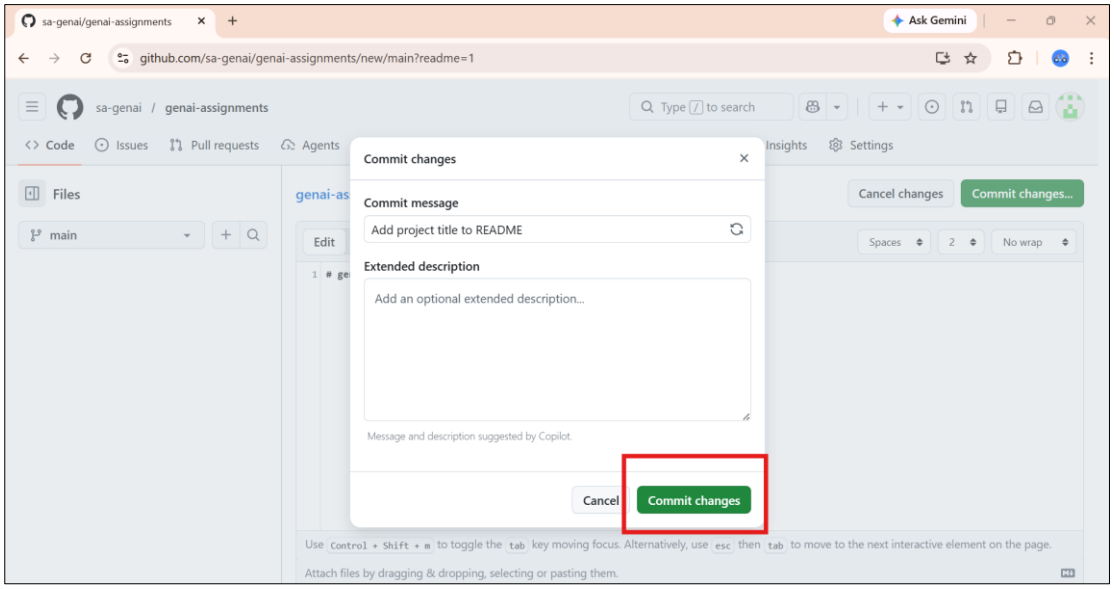

3. Click on **README**.

4. Click Commit changes

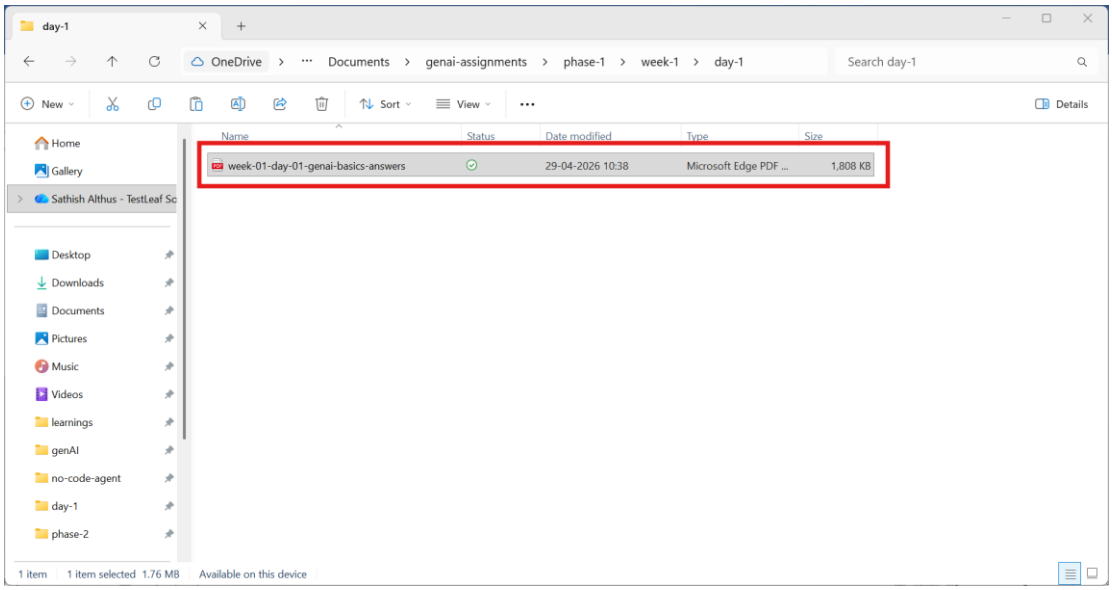

5. And again **Commit changes**.

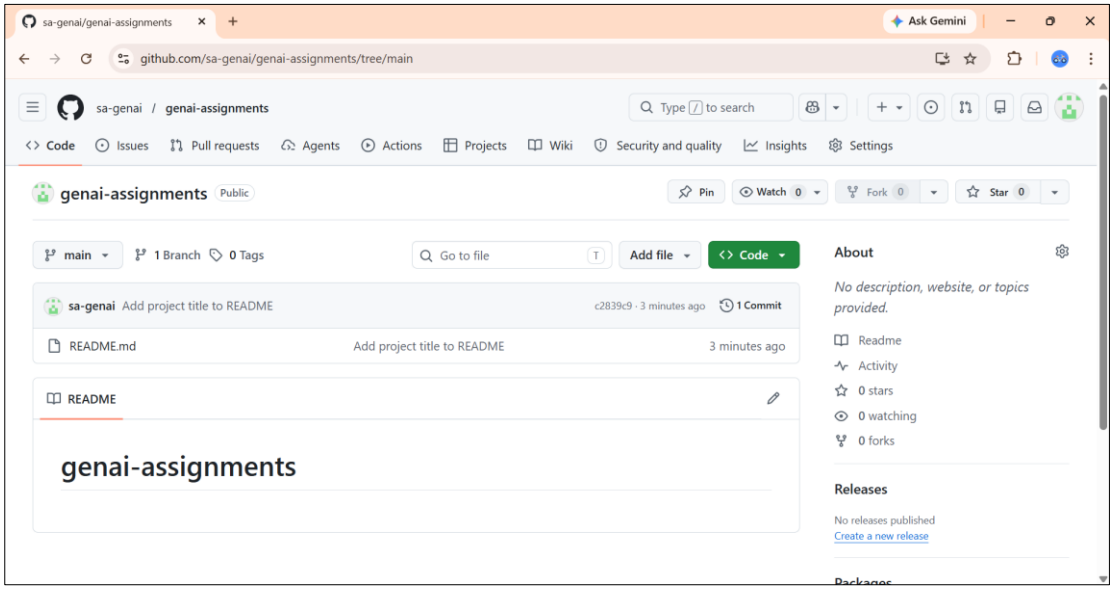

Preparing and Uploading Answers

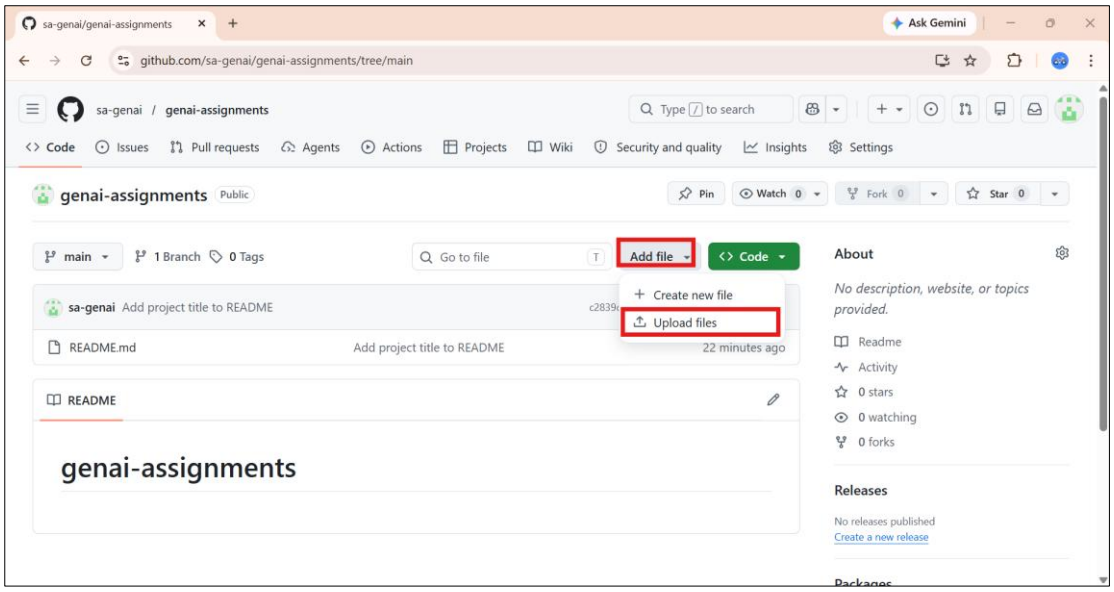

1. Record your answers inside local folder.
    a. Open a new **word document**, add your answers in the form of text and screenshots.
    b. And **save it as PDF**. Follow the naming as "**week01-day-1-topic-name**".

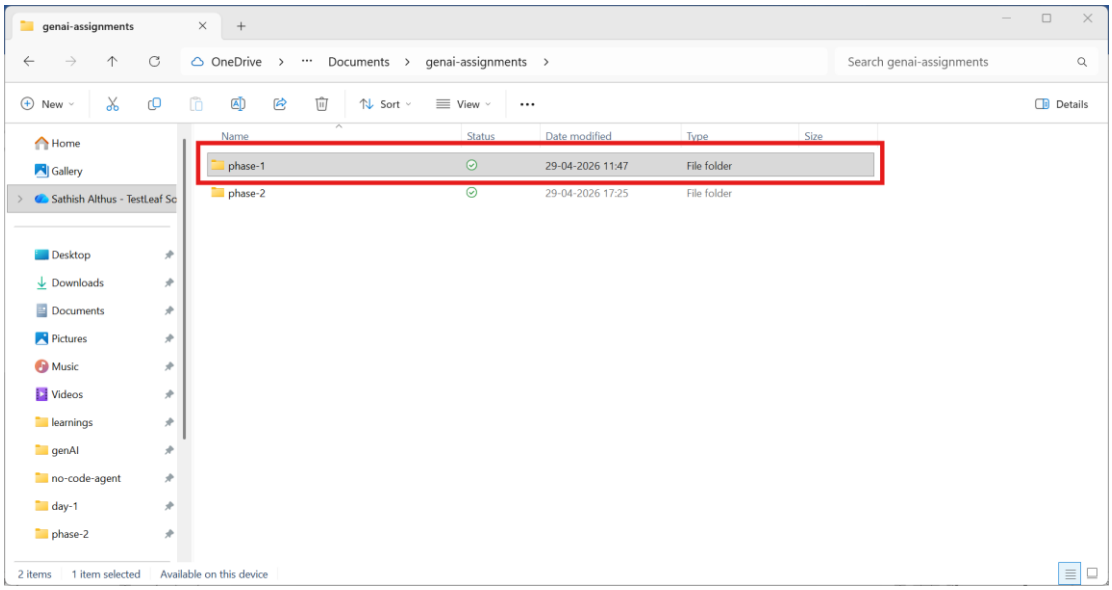

2. Login to your GitHub Account.
3. Go to your **genai-assignments** repository.

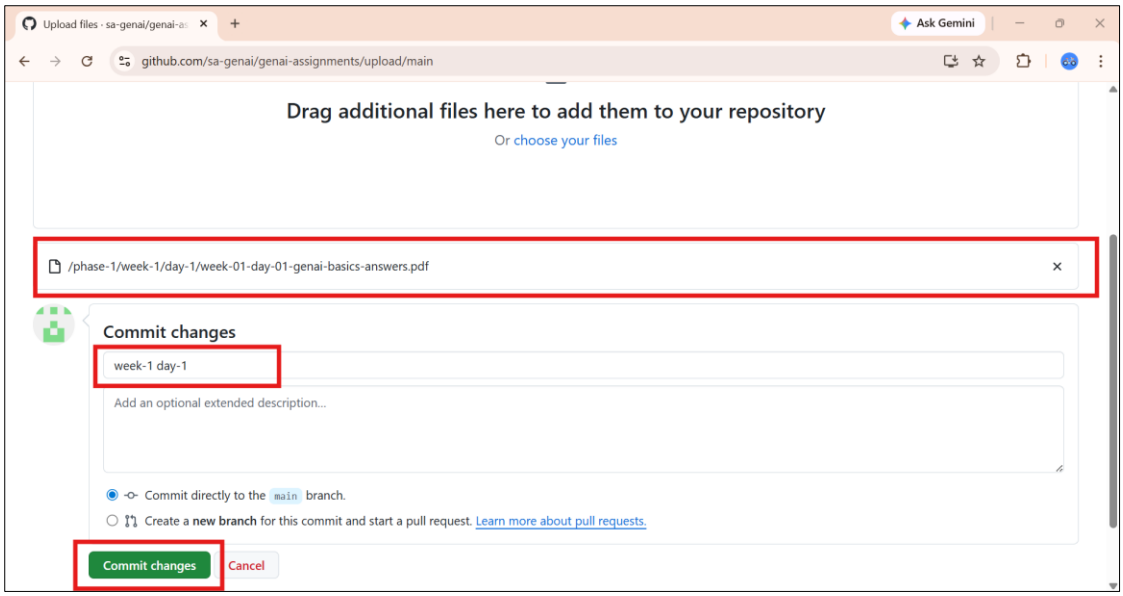

4. Click on **Add File** and **Upload Files**.

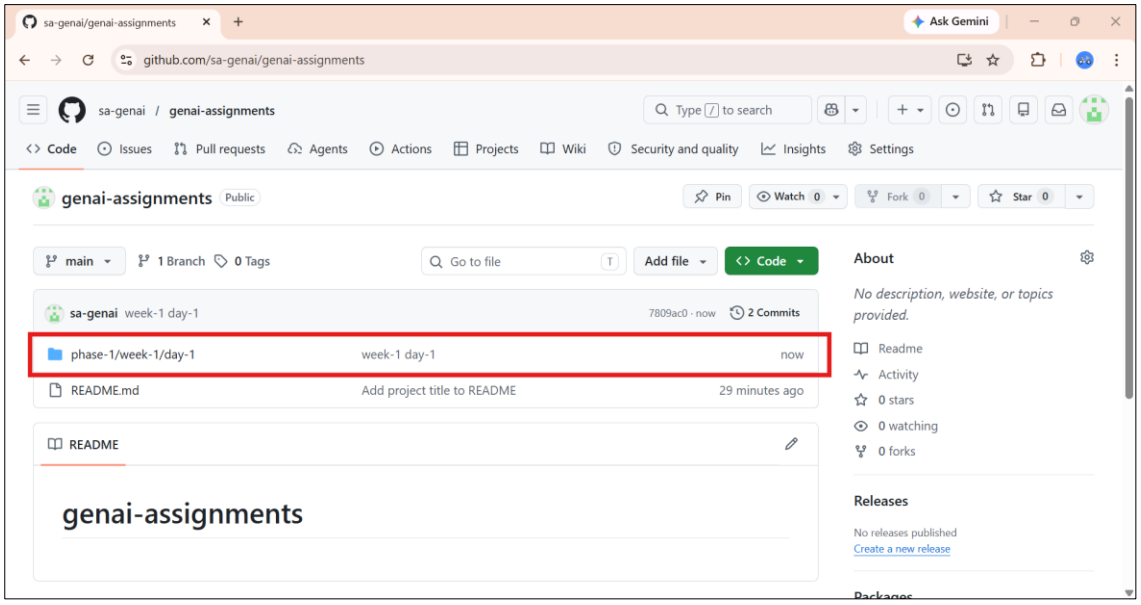

5. **Drag and Drop the folder** (either phase-1 / phase-2).

6. Make sure your file is uploaded and type comment based on the assignment (**ex: week-1 Day-1**). Click **commit**.

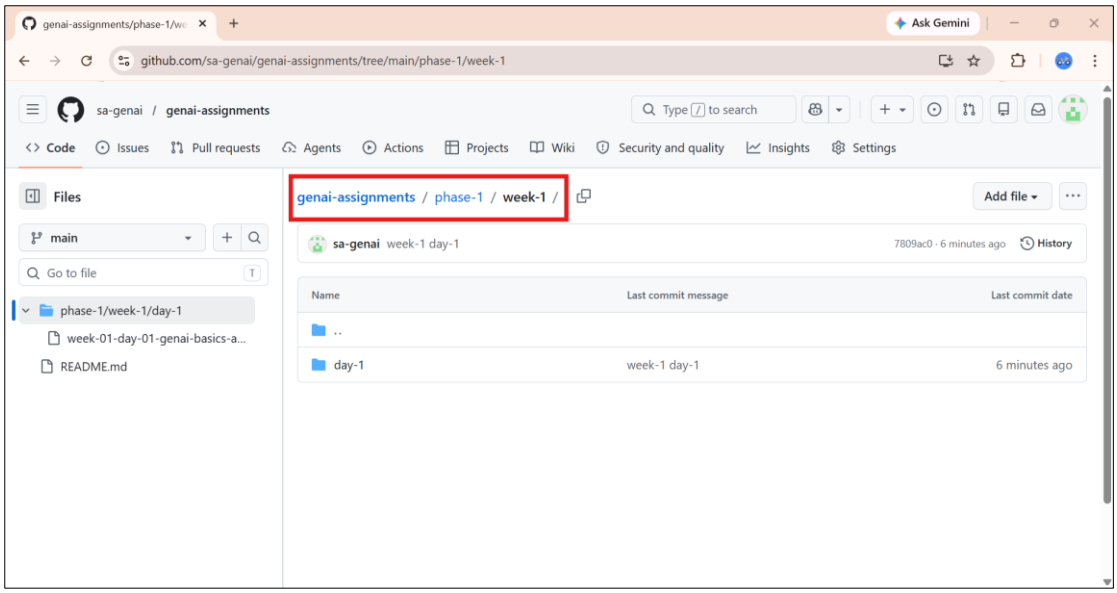

7. Now, you will be able see the uploaded file inside the repo.

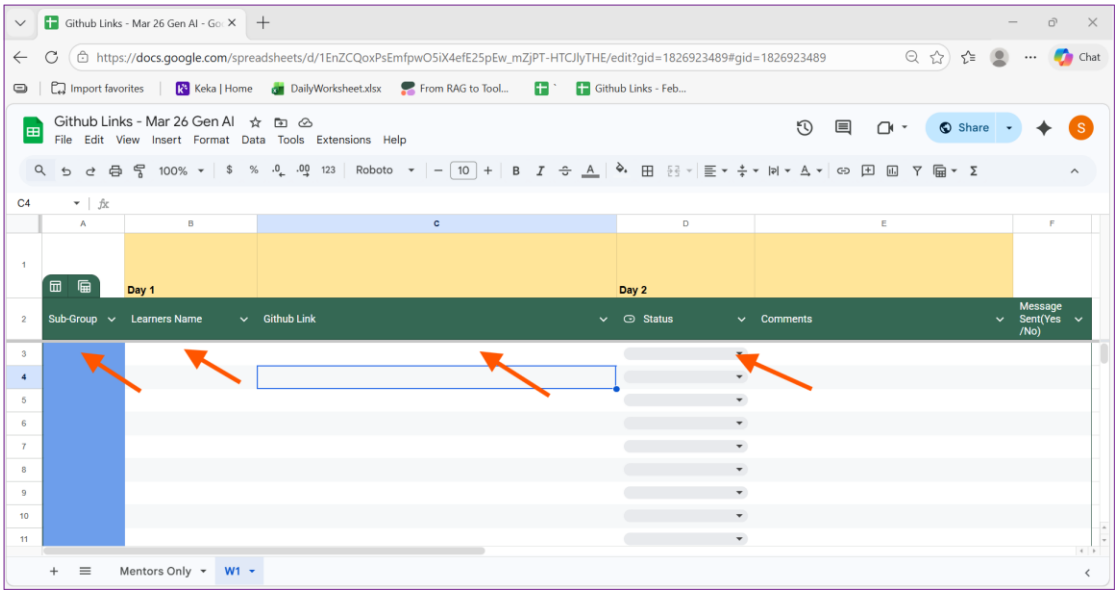

(For following weeks, click on the **Add Files**, and follow the steps above to upload files.)

8. Copy the URL from the Address Bar. Paste in the Excel Sheet for Assignment Tracking against your name for each week.

9. Change the Status to **Submitted / Re-Submitted**.

10. Put a message in your sub-group that you have submitted the assignment for evaluation.
11. And check the same for any comments provided after evaluation.
